

## BADGE 8/15/07 BLOOD DRIVE RESULTS

TO ALL BADGE EMPLOYEES: On behalf of management and the local Red Cross, thank you for your participation in Wednesday's blood drive. Red Cross met their goals and all participants enjoyed hamburgers and hotdogs provided by Red Cross. Our next blood drive is being planned for January 2008.

The American Red Cross, a non-profit organization, provides our country with approximately 50% of nation's blood supply. Of high demand with hospitals is the much needed "Double Red Cell" (DRC or "2 Reds") donations. Hospitals use this supply within days. Males weighing over 150 lbs. and over 5' 1" in height and females weighing over 175 lbs. and over 5' 5" in height are able to donate this way.

Below summarizes results:

|                                    | 1/31/07 | 8/15/07  |
|------------------------------------|---------|----------|
| <b>PRESENTING DONORS:</b>          | 28      | 23       |
| <b>DRC DONORS (units):</b>         | 16      | 20 units |
| <b>WHOLE BLOOD DONORS (units):</b> | 19      | 11 units |
| <b>TOTAL BLOOD (units):</b>        | 35      | 31 units |
